### **Coronavirus (COVID-19) Update – February 25, 2021**

#### *COVID-19 Vaccine Updates Now Available Via Text*

The City of San Antonio and Bexar County have partnered to create a vaccine availability text alert system. Residents can simply text VACCINE or VACUNA (for Spanish) to 55000 to be notified when vaccines become available. This system will not register you for a vaccine but is intended to notify you that vaccines are available so you can register through the vaccine provider's normal processes. For more information, go to the City of San Antonio website by [clicking here](#).

Even after you receive the COVID-19 vaccine, it is still recommended that individuals continue to follow safety protocols including wearing a mask, avoiding large crowds, maintaining six feet distance from others, and maintain good hygiene (such as frequent hand washing/sanitizing).
